

The eleven campers of the First Feng Yun Go School Summer Camp in Beijing have arrived to their destination. Led by Feng Yun 9p, they immediately submerged into the intensive yet fun-packed Go training activities.

The four-week summer camp, organized by Feng Yun Go School, is located at the famous Xingze Go School in Beijing. The theme is Go and Chinese culture. The campers will be learning and playing Go with the local students of the Xingze Go School. In addition, they will have chances to play with the visiting professional players. After classes, Feng Yun 9p will be reviewing and commenting on the games they played. It is really a great opportunity to improve their Go skills. Other than learning Go, the campers will be touring many attractions in Beijing, exploring the ancient, mysterious Chinese culture.

According to the latest news, the campers quickly adapted to the new lifestyle in the Go Camp, thanks to the help from Xingze Go School. Many campers keep playing Go until late at night, can't get enough from a full day of learning. Just a few days ago, they had the chance to play against a world champion, Luo Xihe 9p.

Recently, Luo Xihe 9p has won many games in international pro Go tournaments.

He is indeed one of the best players in the world. We hope each camper will learn a lot from playing against the best. Other than that, Feng Yun 9p has arranged to have them playing in the local tournaments organized by Beijing Go Association. They will have a chance to get Chinese dan/kyu certificates.

In addition, the campers played many more fun games not usually seen in the US, such as Kongzhu (a yoyo-like toy that can make whistling sound). They toured the Great wall, the Forbidden City, Tian An Men Square, the Temple of Heaven, and Beijing University. They tasted genuine

Chinese cuisine like Peking Duck. They Oooed and ahd at the Kong Fu and Chinese acrobatic spectacular shows. No wonder a camper called her parents and said, "There are so many fun activities here that I almost forgot you." A mother wrote to Feng Yun 9p: "After the summer camp, I believe my daughter will improve a lot, not only in her Go skills, but in many other aspects as well."
